

## Powerful and fuel efficient engines

The new Ford EcoSport will deliver an optimised driving experience equipped with Ford Intelligent All Wheel Drive. The technology will be offered in combination with the all-new 1.5-litre Ford EcoBlue diesel engine and a new six-speed manual gearbox.

Also offered will be Ford's multi-award-winning 1.0-litre EcoBoost petrol in 140 PS, 125 PS and – from mid-2018 – 100 PS power outputs, with a six-speed manual gearbox; and 125 PS with a six-speed automatic gearbox featuring steering-column mounted paddle-shifters for convenient gear shifting.

## All-new 1.5-litre EcoBlue diesel engine

Ford's all-new 1.5-litre EcoBlue diesel engine is designed to deliver higher power for improved performance, alongside reduced CO<sub>2</sub> emissions\*. The engine is paired with Ford's all-new, low-friction six-speed manual gearbox, first introduced with the all-new Fiesta. The refined four-cylinder engine features innovative technologies, including:

- Low-pressure exhaust gas recirculation combined with water-air charge cooling for more efficient combustion and reduced emissions
- An integrated intake manifold for optimised engine breathing
- Low-inertia turbocharging for faster, more controllable turbo response, featuring rocket engine materials designed for high temperature applications
- A high-pressure fuel injection system that is more responsive, quieter, and offers more precise fuel delivery

\* Officially homologated fuel efficiency and CO<sub>2</sub> emission figures will be published closer to on-sale date
